What is Annie's Project?

Annie's Project is a six-week course designed especially for farm/ranch women. Sessions will combine lecture, discussion, individual and small group activities, and software training.

Annie's Project strives to help farm/ranch women gain the understanding and knowledge necessary to be active and involved farm partners. Annie's Project will also help women find new ways to balance the demands of family, community, and professionalism within the ag community.

The program is in honor of Annie Fleck, a woman who lived in a small town in Illinois. She spent her lifetime learning how to become a better business partner with her husband.

Management Education for Today's Farm Women

If you are a farm woman with a passion for your farm business, you need to attend this six-week course designed just for you!

Critical decision-making and information topics on:

- (1) Production Risk Management, (2) Marketing Risk Management, (3) Financial Risk Management, (4) Legal Risk Management, and (5) Human Resources Risk Management.

Objectives

Annie's Project is a comprehensive educational program and support network for women in agriculture designed to:

- (1) Deliver technology training to farm women, enhancing their business skills
(2) Develop a support network, which is essential for continuing education and self-help.

At the end of the program, farm women will have increased their knowledge about:

1. Making critical decisions for their operation; asking the right questions
2. Sustainability of their farming operation
3. The importance of implementing risk management strategies
4. Knowing who and where their local/regional resources and support are
